Coaching Experience

As an experienced executive coach, I have worked with leaders in business and government organizations throughout Asia. I coach these clients to strengthen their effectiveness as leaders and managers, in particular focusing on how each client can optimize the impact he/she has on others. In the context of organizations, each leader must be able to communicate in a broad range of relationships. Thus, I work with clients to strengthen their skills in such aspects of communication as influencing, persuading, clarifying, coaching, motivating, and networking.

I have coached executives not only from Singapore, but from other countries in Asia, Europe, and North America. Recent coaching clients include executives from: Infocomm Development Authority of Singapore (IDA), Balco, World Food Program (UN), BOC Gases, TNT, Baxter, and National Starch.

My methodology is a pragmatic results-based and solutions-focused approach. My coaching seeks first to raise awareness as to how a client impacts his/her colleagues. We then work together to strengthen those key leadership skills that are most relevant to my client's specific requirements.
